Chengyuan Automobile Technology (Shandong) Co., Ltd.

COMPANY PROFILE

公司简介

Chengyuan Automobile Technology (Shandong) Co., Ltd. is a leading enterprise specializing in the manufacturing and export of tractor dump trucks, semi-trailers, and engineering machinery. We own three modernized factories and are committed to providing customers with high-quality, cost-effective engineering machinery products based on years of industry experience and technical accumulation. Our core products include:

Tractor trucks, dump trucks, semi-trailers — suitable for logistics transportation and heavy cargo handling

Concrete mixers, cranes — meeting the needs of construction and infrastructure development

Excavators, loaders, road rollers, bulldozers, motor graders — widely used in road construction, mining, and land leveling

Forklifts, tower cranes — efficiently supporting warehousing logistics and high-rise building construction

Our advantages

★ Source Manufacturer — Independent design and production to ensure optimal prices and stable supply

★ Strict Quality Control — Full-process rigorous inspection from raw materials to finished products, complying with international standards

★ Rich Export Experience — Products are sold to many countries and regions worldwide, gaining deep trust from customers

★ Customized Services — Personalized product solutions available based on customer needs

CHENGYUAN Trailers, with superior quality, competitive prices and professional services, looks forward to establishing long-term cooperative relationships with global customers and working together to create a bright future!

诚远汽车科技
（山东）有限公司

诚远汽车科技（山东）有限公司是一家专业从事牵引自卸、半挂车、工程机械制造与出口的领先企业。我们拥有三家现代化工厂，凭借多年的行业经验和技术积累，致力于为客户提供高品质、高性价比的工程机械产品。我们的核心产品包括：

牵引车、自卸车、半挂挂车 —— 适用于物流运输与重型货物搬运

混凝土搅拌车、起重机 —— 满足建筑与基础设施建设需求

挖掘机、装载机、压路机、推土机、平地机 —— 广泛用于道路施工、矿山开采及土地平整

叉车、塔吊 —— 高效助力仓储物流与高层建筑施工

我们的优势

★ 源头生产厂家 —— 自主设计、生产，确保最优价格与稳定供应

★ 严格质量控制 —— 从原材料到成品，全程严格检测，符合国际标准

★ 丰富出口经验 —— 产品远销全球多个国家和地区，深受客户信赖

★ 定制化服务 —— 可根据客户需求提供个性化产品方案

诚远汽车科技（山东）有限公司以卓越的品质、竞争力的价格和专业的服务，

期待与全球客户建立长期合作关系，携手共创未来！

4-01 FENCE SEMI-TRAILER
仓栏半挂

- 系列仓栅式车分为仓栅式半挂车和二类底盘改装仓栅式车。
- 整车车身采用优质钢材，先进的技术，严格的生产工艺制造而成，整车的结构合理，性能可靠，操作简便外型美观。配件均采用国内外知名厂家产品，且严格按照质量体系文件要求采购、检验、使用，保证了整车的良好性能。
- 系列仓栅式半挂车架均为穿梁式结构,纵梁采用平直式或鹅颈式。腹板高度从400mm至500mm锰板煌接纵梁采用自动埋弧焊焊接，车架采用抛丸处理，横梁穿入纵梁并焊接整体。
- 悬挂采用分独立钢板冲压刚性悬挂(可选装空气式悬挂)由串联式钢板弹簧和悬挂支架组成:结构合理具有较强的刚性和硬度，用来支撑载荷减缓冲击

- The series of gantry trucks are divided into gantry semi-trailer trucks and second-class chassis modified gantry trucks.
- The entire vehicle body is made of high-quality steel, advanced technology, and strict production processes. The structure of the vehicle is reasonable, the performance is reliable, the operation is simple, and the appearance is beautiful. All accessories are sourced from well-known domestic and foreign manufacturers, and purchased, inspected, and used strictly in accordance with quality system documents to ensure the good performance of the entire vehicle.
- The series of warehouse rack semi-trailer frames are all of the through beam structure, with longitudinal beams of the straight or goose neck type. The height of the belly plate ranges from 400mm to 500mm, and the manganese plate is welded with automatic submerged arc welding for the longitudinal beam. The frame is shot blasted, and the crossbeam is inserted into the longitudinal beam and welded as a whole.
- The suspension adopts independent steel plate stamping rigid suspension (optional air suspension) composed of series steel plate springs and suspension brackets: the structure is reasonable and has strong rigidity and hardness, used to support loads and reduce impacts

AUTOMOBILE

全方位一站式服务
Comprehensive one-stop service

4-02 LOW FLATBED SEMI-TRAILER
低平板半挂

- 低平板半挂车有平板式,,凹梁式和轮胎外漏式结构，其车架为阶梯形,纵梁截面为工字形,具有刚度高,强度高等特点。
- 车架货台主平面低，保证了运输的平稳性，适宜运载各类工程机械、大型设备和钢材等。
- 采用三轴平衡式、双轴平衡式或刚性悬架，在前后钢板弹簧之间装有质量平衡块，可是前后钢板弹簧是绕度等量变化，使前后轴受力均衡等。
- 二氧化碳气体逆变焊接，整个车架经喷丸处理，使车辆更美观。

- The low flatbed semi-trailer has flatbed, concave beam, and tire leakage structures. Its frame is stepped, and the longitudinal beam section is I-shaped, with high rigidity and strength.
- The main plane of the frame cargo platform is low, ensuring smooth transportation and suitable for carrying various types of construction machinery, large equipment, and steel.
- Adopting three-axis balance, dual axis balance or rigid suspension, a mass balance block is installed between the front and rear steel plate springs. However, the front and rear steel plate springs have equal changes in curvature to balance the force on the front and rear axles.
- Carbon dioxide gas inverter welding, the entire frame is shot blasted to make the vehicle more beautiful.\

4-03 DUMP SEMI-TRAILER 自卸半挂

- 底盘采用各底盘厂家生产的专用底盘，技术先进、性能可靠。
- 配件均采用国外知名厂家产品，具严格按照质量体系文件要求采购检验、使用，保证了整车的良好性能。
- 该系列自卸车采用马勒里式(T式)或单缸浮动连杆式(F式)或前直顶式液压举升机构，厢体有簸箕形和矩形两种。具有强度高、举升力强等特点。
- 该车适合公路、铁路、水电、港口过渡运输及矿产资源的各种散装货物运输。

- The chassis adopts the special chassis produced by various chassis manufacturers, with advanced technology and reliable performance.
- All accessories are sourced from well-known foreign manufacturers and strictly inspected and used in accordance with quality system documents, ensuring the good performance of the entire vehicle.
- This series of dump trucks adopts the Marley type (T-type) or single cylinder floating connecting rod type (F-type) or front straight top hydraulic lifting mechanism, with two types of compartments: dustpan shaped and rectangular. It has the characteristics of high strength and strong lifting force.
- This vehicle is suitable for the transportation of various bulk goods such as highways, railways, hydropower, port transit, and mineral resources.

SEMI-TRAILER 挂车
全方位一站式服务
Comprehensive one-stop service

4-04 FLATBED SEMI-TRAILER 平板半挂

- 平板半挂车可用于运输集装箱，如船舶、港口、航线、高速公路、中转站、桥梁、隧道和其他物流系统。也可用于运输危险品储罐。它可以运输散装货物、重型设备、管道和各种尺寸的集装箱。
- 平板半挂车是一种由高强度钢结构制成的轻型挂车。您可以选择将其与卡车拖拉机一起使用。

- Flatbed Semi Trailer can be used to transport containers, such as in ships, ports, routes, highways, transfer stations, bridges, tunnels and other logistics systems. And also can be used to transport dangerous goods tanks. It can carry bulk cargo, heavy equipment, piping and containers for all sizes.
- The Flatbed Semi Trailer is a lightweight trailer made of high strength steel structure. You can choose to use it with a truck tractor.

4—05 SIDE CURTAIN SEMI-TRAILER 侧帘挂车

- 侧帘拖车的主要优点之一是其显著的灵活性和可接近性。窗帘设计便于从侧面装卸货物，无需仅从顶部或后部进入。此功能不仅节省了时间，还简化了处理过程，特别是对于大型和笨重的物品。它能够快速有效地转移货物，从而提高生产率并缩短整体周转时间。
- 侧帘拖车集灵活性、可见性、燃油效率、安全性和定制性于一体。其众多优势使其成为当代交通领域不可或缺的资产，使企业能够简化运营，提高效率，安全及时地交付货物。

- One of the primary advantages of the side curtain trailer is its remarkable flexibility and accessibility. The curtain design allows for easy loading and unloading of goods from the sides, eliminating the need for cumbersome top or rear access only. This feature not only saves time but also simplifies the handling process, especially for large and bulky items. It enables quick and efficient transfer of cargo, thereby increasing productivity and reducing overall turnaround time.
- The side curtain trailer brings together a combination of flexibility, visibility, fuel efficiency, security, and customization. Its numerous advantages make it an indispensable asset in the contemporary transportation landscape, enabling businesses to streamline their operations, improve efficiency, and deliver goods safely and promptly.

SEMI-TRAILER 挂车
全方位一站式服务
Comprehensive one-stop service

4—06 SKELETON SEMI-TRAILER 骨架挂车

- 骨架挂车可用于运输集装箱，如船舶、港口、航线、高速公路、中转站、桥梁、隧道和其他物流系统。也可用于运输危险品储罐。拖车车身采用高强度钢，使其更加坚固耐用。油漆光滑、明亮、结实。
- 根据您的使用情况，您可以选择合适的尺寸设计和30至80吨的负载能力，也可以使用不同的轴数量来匹配当地限制。

- Skeleton Trailer can be used to transport containers, such as in ships, ports, routes, highways, transfer stations, bridges, tunnels and other logistics systems. And also can be used to transport dangerous goods tanks. For the trailer body, adopt high strength steel to make it more sturdy and durable. The paint is smooth, bright and strong.
- According to your usage, you can choose suitable size design and the load capacity from 30 to 80 Tons, also use different axle quantity to match local limit.

4—07 CAR CARRIER SEMI-TRAILER
轿运挂车

- 轿运挂车采用独特的液压升降系统。拖车的关键部件是国内外的高品质品牌。
- 轿运挂车安全可靠，装载能力强，重量轻。通常，它可以装载5-10辆不同尺寸的汽车。

- The Car Carrier Trailer adopts a unique hydraulic lifting system. Key parts of the trailer are high quality brands at domestic and world wide.
- Carrier Trailer is safe and reliable, it has strong loading capacity and light weight. Normally, it can load 5-10 cars of different size.

4—08 CEMENT BULKER SEMI-TRAILER
水泥粉罐车

- 适用于粉煤灰、水泥、石灰粉、矿粉等粒径不大于0.1mm的干燥物料的运输和气动卸料。当卸料的垂直高度达到15m时，水平输送距离可达5m。
- 一体化罐体具有整体强度高、刚性好、承压好、性能好的特点
- 储罐采用单V或双V内进式石灰卧式结构，双进风口，双缸进料，使加铀效率高达1.4吨/分钟；该罐容积利用率高，灰渣残留率低至0.2%

- Suitable for transporting and pneumatic unloading of dry materials such as fly ash, cement, lime powder, ore powder with a particle diameter of no more than 0.1mm. When the vertical height of the unloading reaches 15m, the horizontal conveying distance can reach 5m.
- The integrated tank body has the characteristics of high overall strength, good rigidity, good pressure bearing, and good performance
- The tank adopts a single V or double V inward-inc limed horizontal structure, with double-pipe air intake and double-cylinder feeding.making the um-loading efficiency as high as 1.4 tons/min; the tank has high volume utilization and the ash remaining rate is as low as 0.2%

4—09 LOWBED SUPERLINK SEMI TRAILER
狼狈半挂

● 狼狈半挂车，包含前车，中间链接(狼狈)，后车三部分组成，装有锁具，用于装集装箱，自由换厢，全车承载160吨，可单用，可组合，便于货物运输。

● The disheveled semi-trailer consists of three parts: the front car, the middle link (disheveled), and the rear car. It is equipped with locks and used for loading containers, allowing for free changing of compartments. The entire vehicle can carry 160 tons and can be used alone or combined for easy transportation of goods.
