COMPANY PROFILE

公司简介

Chengyuan Automobile Technology (Shandong) Co., Ltd. is a leading enterprise specializing in the manufacturing and export of tractor dump trucks, semi-trailers, and engineering machinery. We own three modernized factories and are committed to providing customers with high-quality, cost-effective engineering machinery products based on years of industry experience and technical accumulation. Our core products include:

Tractor trucks, dump trucks, semi-trailers — suitable for logistics transportation and heavy cargo handling

Concrete mixers, cranes — meeting the needs of construction and infrastructure development

Excavators, loaders, road rollers, bulldozers, motor graders — widely used in road construction, mining, and land leveling

Forklifts, tower cranes — efficiently supporting warehousing logistics and high-rise building construction

Our advantages

★ Source Manufacturer — Independent design and production to ensure optimal prices and stable supply

★ Strict Quality Control — Full-process rigorous inspection from raw materials to finished products, complying with international standards

★ Rich Export Experience — Products are sold to many countries and regions worldwide, gaining deep trust from customers

★ Customized Services — Personalized product solutions available based on customer needs

CHENGYUAN Trailers, with superior quality, competitive prices and professional services, looks forward to establishing long-term cooperative relationships with global customers and working together to create a bright future!
